

Hello fellow FantasyPlanets enthusiasts,

This document is made to give you an overview over the rarity of each item in the FantasyPlanets collection.

The higher the rarity score, the more rare the planet is. Rank #1 is the planet with the rarest traits in the collection (highest Total Rarity Score), and Rank #3600 is the planet with the most common traits in the collection (lowest Total Rarity Score).

Now you always know what is the relative value of the items you want to buy or sell.
